Career Objective:

My goal is to be one of the top ten programmers. Choosing Python and JavaScript as the programming language does notmean that I am bound by a limitation. I want to know the programming language deeply, and I'm still trying. I love innovation a lot, so I always try to discover something new.

Skills Specialization:

Expert
- Python (OOP)
- Django
- JavaScript
- ReactJs
- Redux
- NextJs
- Rest-API
- MYSQL
- PostgreSQL
- AWS (Cloud)

Projects
- JobPortal(Django+Nextjs)
- Dhakashop(Django+Reactjs)
- newsportal
- Hotel Booking
- Civil Management
- onlinecourse(Django)
- FishBasket(ecommerce)

Familiar
- HTML5
- CSS3
- DOM Rendering
- Mac OS
- Linux OS
- Git-Auto-Deploy
- Data Science
- Machine Learning

Job Experience:

Summary: I am currently working as a full stack application developer at Metaboxsoft Technologies Ltd. Software Company. I have been working with appreciation for one year plus here. Prior to that I worked at Creative Tech Park for 2 years. At this company I have come up with many improvements, such as advanced software control panel, cloud deployment.This company also has projects that I have done alone, an e-commerce project, job portal project, a hotel management project,online course management project etc.
